CONSUMPTION CURED!

AND

CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

NO OPIUM.

This group contains no Opium, Calomel, or any mineral whatever, but is composed entirely of those Herbs, Barks and vegetable substances, which have been found the most powerful in subduing Pulmonary Disease. Its direct effects are to relay all irritation, and greatly remove the pulmonary and other morbid secretions with the least and Air Passages, thus relieving the Cough, allaying the inflammation and other causes which give rise to it. It also stimulates and imparts a healthy tone to the Lungs and Digestive Organs. Slag is then thoroughly refined from the blood thus in contact with the diseased particles, which, if left to circulate and poison the system, and by the Blood on the Inflammable CONSUMPTION. It also invigorates the Liver, and by its action, and relieves the Kidneys, through the Exhaustants, much of that matter which would otherwise be thrown back upon the Lungs, to collect from other part of their work, and thus lighten the system pure and healthy. When taken in time, it prevents their development and further progress, and if taken after the commencement of the complaint, it will arrest the progress of the disease, and effect a cure. Its mild and healthy action, and its entire freedom from the obnoxious drugs, which only temporarily palliate, merely, which only temporarily palliate, but in the long run aggravate, while it does not, in the slightest degree, weaken the system, and by removing the cause at once all its unpleasant consequences. This little change, unlike other medicines, requires no change in diet, and is equally powerful in the two other medicines, requires no change in diet, and is equally powerful in the two other medicines, requires no change in diet, and is equally powerful in the two

Whig and Courier.

John S. Sayward, Editor.

MONDAY APRIL 28, 1851.

☞ A petition of address to the Queen, signed by above 200 members of the two Houses of Parliament and more than 300,000 lay members of the Church of England, recently was laid before the Queen, the prayer of which was that Puseyistic, in reality, Roman Catholic usages and tendencies of some of the Clergy of the established Church, might be stopped either by Episcopal reproof or the direct interposition of the Queen.

A similar address, even more unanimously signed, has more recently been presented in the same quarter, praying for a similar reform.

The Queen has formally remitted the second of these addresses to the Archbishop of Canterbury, virtually instructing that dignitary to comply with its request. Her Majesty declares her confidence that the Archbishop desires to use such means as are within his reach to maintain the purity of the doctrines of the Church, and to prevent innovations in the mode of conducting the church service, not sanctioned by usage, and which are calculated to create much dissatisfaction among the members of the church.

This has the appearance that some reform in the Church is to be insisted upon, as part of the plan for the arrest of the papal aggression.—The puseyites being numerous and influential, this attempt at reformation may involve very material and important issues.

Obedience to the Law. Some isolated sentences from a letter of Judge McLean's have been published, having the appearance of sanctioning disobedience to the Fugitive Slave Law. We perceive by the following, which we extract from the Ohio State Journal of the 16th, that the Judge occupies very different ground upon the subject:—

United States Court. Judge McLean, in his charge delivered this morning to the Grand Jury, among other remarks, congratulated the jury that no violation or infraction of the law relating to the reclamation of fugitives from service had taken place within this State. He remarked that this spoke well for the character of the citizens of Ohio. He trusted no forcible interference with the requirements or operation of that law would at any time be exhibited within this State. If the law were objectionable, let it be remedied by the ballot-box.—Forcible resistance should not be countenanced. It should be promptly discouraged and frowned down. Such a mode of redress has no sanction, and can have no sanction from the institutions or morals of the country. It tends alike to the subversion of all order, and the destruction of all the securities of our social existence.

New England Art Union.

We learn from Mr. E. F. Duren, the honorary Secretary for Bangor of the N. E. Art Union, that that society have decided to have the picture of Saul and the Witch of Endor, painted by Allston, and owned by Col. Perkins, engraved for the members of the Union the present year. The picture is one of great merit, and the engraving is to be completed by the joint assistance of Cheeney, Andrews and Wagstaff, so that the subscribers to this Union will be sure to get an engraving superior to anything in this line which has been offered in a similar manner. The engraving will be 19 by 25 inches. The inducements held out by this Union for persons to become subscribers are very great.

☞ An old observer gives it as his opinion that the appearance of the sun this spring prophecies of an excellent corn year, and strongly advises farmers to be sure and plant a good field of the early variety of corn common in Maine. He is satisfied that if the soil is put in proper condition, the seed planted in good season and suitably tended that the crop will be large and sound. We agree in his conclusions, for corn seasons are more common than formerly.

☞ The New York Commercial reports that there is something in the matter of an expedition against Cuba, but the activity of the U. S. Government is likely to put a stop to any effective expedition being made from any part of the United States. The U. S. Marshal has taken possession of the steamer Cleopatra, supposed to be fitting out to take a large party of adventurers to Cuba for the purpose of overturning the government there. The names of the parties in New York implicated in this movement are known to the government.

☞ We have received the 10th number of Messrs. Leonard Scott & Co.'s New York edition of *The Farmer's Guide to Scientific and Practical Agriculture*, a work, as we have had frequent occasion to notice, of great merit, particularly as unfolding the very great and extensive agricultural operations in England, and enriched with the remarks upon the several seasons by Professor Norton of Yale College. As a suggestive book rather than a formula, it should be in the hands of all who delight in thorough farming.

☞ The Youth's Companion, for long years a favorite with the youth of our country, continues to be published with regularity and to contain highly interesting matter. It is devoted to piety, morality, brotherly love without sectarianism and without controversy, and is published once a week at one dollar a year.—A new volume commences in May and Messrs. E. F. Duren & Co., the Bangor agents, have made arrangements for the delivery of the numbers here without charge of postage.

☞ Mr. Brockmuller of the Palm street Green House proposes, as will be seen by referring to his advertisement in another column, to hold a grand festival at his Green House on May Day, and to distribute plants and also fine rich premiums. The inducements offered for every body and all his folks to take part Maying are very numerous and attractive.

☞ The citizens of Newburyport, Mass., which town has been considerably enlarged of late have applied for a city charter. It would be just just like the people there to make Gen. Cushing the first mayor of the new city.

Shipwreck. The British schooner Thistle, Bent, from Boston for Annapolis, N. S., went ashore in the gale of the 15th inst., on Gerrish Island, outside of Portsmouth harbor, and the vessel will be nearly a total loss. Her cargo has been saved in a damaged state. Among the passengers, says the Portsmouth Messenger, was a lady, resident in Boston, who had started on a visit to her friends in Nova Scotia, whom she had not visited for nine years. Being unable to save herself by the same means employed by the crew, she threw her infant overboard, and was rejoiced to see it safe in the hands of one of the brave men. She then jumped over herself, and was rescued and got safely on shore; but the hardship she had endured and the privation and anxiety she had undergone proved fatal, and although every thing was done for her comfort, she expired on Friday.

☞ It is gratifying to find that our citizens are beginning to transplant forest and other ornamental trees along the road sides. This is all very right. Nothing can add so much to the beauty and healthiness of the city and its security against fire as a plenty of fine shade trees. By the advertisement of Dr. William Mann, it appears that he is prepared to supply all such forest trees as may be desired. He is constantly shipping large quantities and has facilities for getting trees of any desirable size.

☞ The Greenville Southern Patriot says:—"We know of some gentlemen of wealth and worth who are about leaving South Carolina on account of the continued political turmoil and warfare with the General Government which characterizes her. If she persists in her mad schemes of secession, her best citizens will leave her in droves, and move, as one told us a few days since, into the United States."

Large Ox.

The Butchers in Orono, Messrs. Bracket & Hatch, have had a grand time in slaughtering a noble ox, fatted by Daniel White, Esq., in that town. The weight of the ox on the hoof was 2400 lbs. and his dressed weight was 1630 lbs. The price paid was $105. This is a specimen of successful feeding on the Penobscot and equals if it does not surpass that of any part of the State.

☞ Ladies who wish to purchase the most desirable dress and fancy goods, will do well to examine very attentively our advertising columns, for a complete directory. Our merchants have, this spring, almost exceeded themselves in the beautiful selections which they have made. "The Cherryfield Belles" will purchase their best dresses in this city.

☞ There were thirteen cholera deaths in New Orleans during the week ending the 21st instant.

☞ There are favorable reports from Mississippi, where Senator Foote is laboring earnestly in the cause of the Union.

☞ We give our thanks to Bryant & Co's Express for Boston papers received Saturday, in advance of the mail.

☞ Our thanks are tendered to Hodgman & Co's Express for papers received Saturday in advance of the mail.

☞ We tender our thanks to Mr. Holmes of Winslow & Co.'s Express for a supply of late papers.

☞ The City Council will meet this afternoon at 2½ o'clock.

Read Douglass' for The Autobiography of a Minister's Daughter. By S. R. W. Nevin. York: D. Appleton & Co., 1851. pp 372.

This is a comely volume in the usual good style of its well known publishers. It is a work of much interest, showing in a very clear light many interesting phases of life in Scotland—a personal narrative of varied incidents, and experiences and thoughts of one in a position to observe many things in the life of the true hearted Scotch people and to make apt and forcible suggestions. There is an aptness of description and a flowing statement of fact which bears one along very agreeably through the book, and from its pages the mind is refreshed and the heart strengthened.

This work may be found upon the counter of Messrs. E. F. Duren & Co., in this city.

A Female Monster. The London Times of a late date, gives an account of a woman by the name of Sarah Cheesman, who was to be executed for crimes unparalleled in atrocity. She was tried at the assizes of 1847 for poisoning two of her children the year before, and acquitted. A short time afterwards she was again placed in peril, on a charge of like nature, but again pronounced guiltless.—In the present instance, she was indicted for the murder of her own husband, and a verdict obtained, which she suffered death, as above stated. Her mode of administering poison was by carrying about lozenges in which there was arsenic. The murder of her husband was accomplished by mixing the poison in a bag of rice, in such a manner as that every grain became saturated. She then gave it to her husband at intervals, and in small doses, consuming him by slow tortures, and leaving him at last, after six months' suffering, with so little arsenic in his body that its presence was scarcely discoverable by the most searching tests of chemistry. This is a more horrible case of poisoning than any related of Madame Lafrage, or any other of the too numerous female poisoners in France.

A Curiosity.

While Gov. Brown was in Key West, says the Tallahassee (Florida) Sentinel, he was presented by Hon. A. Patterson with a miniature bust of Gen. Washington, found ten years ago, in the neighborhood of Mr. Patterson's premises, imbedded in the limestone which forms the island. The bust is of marble, and is evidently the work of a master. The expression is said to be indentical with that of the famous statue of Washington at Richmond, allowed to be the best likeness in existence. The little bust is in a perfect preservation; all the delicate chiselling in the plaits of a ruffled shirt remaining and well defined as ever, and the marble without discoloration. Across the shoulders is inscribed the word 'Weasington,' a spelling which seems to indicate an Italian origin. In the same spot two English guineas were found, the dates and inscription of which we did not learn. All were probably deposited by some freebooter of the olden time.

There is an odor of the marvellous about this, a little too strong to be taken without allowance.

Mr. Webster's letter to the Common Council of Boston.

Marshfield, Saturday morning, April 19, 1851.

To Francis Brinley, Esq., President of the Common Council of the City of Boston.

My Dear Sir:—I have received your communication, transmitting copies of the Preamble and Resolutions adopted on the 17th inst., by the unanimous vote of the body over which you preside.

I should be incapable of all just emotion if I delayed a moment to express my grateful thanks for a proceeding so friendly and so honorable towards myself.

I wish my stay in this vicinity could be such as to afford me an opportunity of calling individually upon you, and all the members, and paying to each my personal regards.

There are, I know, members of the Council who entertain political opinions different from my own; and this makes me more anxious to signify, in an emphatic manner, (my sense, not only of kindness and courtesy, but also of the manliness and independence, which characterize their votes.

I shall not have the pleasure, during my present visit, of meeting the citizens of Boston.

What I have done, within the past year, to maintain the Union, and to preserve the relations of peace, friendly intercourse, commerce and business among all the States has not been done in a corner, and I shall not go into a corner to perform what may be done. Nor shall I enter Faneuil Hall, "till its gates shall be thrown open, wide open, not with impetuous recoil "grating harsh thunder," but with harmonious sound, on golden hinges moving, to let in freely and to overflowing, and your fellow citizens, and all men, of all parties, who are true to Union, as well as to Liberty, men, who can look around, on the faces of the Patriots which adorn the walls of that sacred Temple, draw in with their deepest breath, the appropriate inspiration, and stand upright and erect upon its pavement, in mind and heart elate, in the consciousness that they, too, are Americans, lovers of their country and their whole country and not unworthy to follow in the footsteps of their great forefathers.

If Providence shall be pleased to spare my life and health till that hour comes, I shall meet the citizens of Boston, and my voice shall be heard, once more, in the Cradle of American Liberty.

Till then, again thanking you and the members of the Council, I bid you and them, farewell.

DANIEL WEBSTER.

Mr. Webster called to the Capital.

New York, April 25.

Mr. Webster, on arriving here yesterday, found a despatch from President Fillmore requiring his presence in Washington. He will, therefore, leave without delay.

Sir H. Bulwer is seriously indisposed.

From Minot's Rock.

We learn from Mr Bennett the keeper of the Minot's Rock Light House, that in company with Mr Morris, of the R. B. Forbes, he yesterday, at low water visited the site of the late structure.

After procuring a spar, of thirty-one feet in length, from the shore, they erected it upon the rock as a beacon to mark the spot where the late structure stood, and to warn the mariner of his danger in approaching too near the rock. The spar was stayed up with rigging from the Forbes.

Capt. Morris and Mr. Bennett, while upon the rock, examined the fragments of the pillars minutely, and came to the conclusion that they were made of very indifferent iron. In this opinion other gentlemen from the city, who have seen them, concur. Mr. Bennett is about to raise the fragments of the structure which lay a little to the westward of its former site, broken into fifty pieces.

A party also pulled up the stay which was used for sliding the chair up and down, and found from its appearance that the lanyard connecting it with the house had evidently been let loose from the building before it fell. It was also ascertained that the portion of the rock which Mr. Bennett has previously stated to be split, was hove off to the depth of about two feet.

Mr. Bennett is much indebted to Capt. Morris for his assistance in getting up a good light on board the Forbes at night, and for the aid rendered to him in the discharge of other duties.

We learn that the Government has ordered the Light Ship, formerly stationed on the Brandywine Shoals, to be sent round to this port for the purpose of being stationed at the Minots.—Boston Jour.

Important from Central America.

New York, April 26.

We have received some interesting intelligence from Costa Rica, Guatemala and San Salvador, to a very late date. The election of Director of Nicaragua had resulted in the choice of Lareno Fiendala, a distinguished statesman who represented the civil party.

The President, Vas Concelos, of San Salvador, has been impeached for having made war on Guatemala without the sanction of Congress. The Vice President, Quiros, who belongs to the moderate or conservative party, has taken the reins of government, and concluded an arrangement for the settlement of the questions pending with Guatemala and the British Charge, Mr. Chatfield. In consequence of this Carreras had evacuated San Salvador, and the British blockade had been raised.

There has been a fearful earthquake in Costa Rica, which has destroyed the city of Alagulo, and much damaged the capital, San Josef. It occurred on the 24th ult. Alagula is a town of ten or fifteen thousand inhabitants.

From Texas.

New Orleans papers of the 17th inst are received at Baltimore. They contain dates from Galveston to the 13th. The bodies of seven men, supposed to have been killed by Indians, have been found near Corpus Christi. Hundreds of emigrants, from Missouri, Arkansas, and other States, as well as foreigners, are flocking into Texas.

Some papers are discussing, not only the propriety, but the mode of paying the State debt.

Commodore James Barron, senior Captain U. S. Navy, died at Norfolk on Monday afternoon, in the 83d year of his age.

From Mexico.

New York, April 25.

We have received from Mexico the Monitor, and La Traite de Union to the 20th March.—The Journal Universal opposes the treaty of Tehuantepec, but the works continue on the Isthmus. The Trait de Union says that government is at the end of its resources, and being unable to make a loan with the other powers, wants to make one with the clergy. The negotiation was nearly closed at the departure of the mails, and the treasury will be thus full for some days.

The Diaro de la Marina has news to April 1st. The only interesting advice are the resignation of the Minister of Finances, Senor Esteva, succeeded ad interim by Senor Aguirre; Minister of Justice, added by D. Miguel Lodo de Tirada.

Great fire at Kingston, Canada.

Toronto, April 22.

A great fire occurred this morning at Kingston. Forty houses have been destroyed in the block bounded by Princes, Bagot, Wellington and Queen streets—the principal part of the city. The progress of the fire has been arrested. The loss will be very heavy, but is not yet ascertained.

THE CUBAN INVADERS!

PROCLAMATION OF THE PRESIDENT OF THE UNITED STATES!

Washington, April 25.

Whereas, there is reason to believe that a military expedition is about to be fitted out in the United States with the intention to invade the Island of Cuba, a colony of Spain with which this country is at peace; and whereas, it is believed that this expedition is instigated and set on foot by foreigners who dare to make our shores the scene of this guilty and hostile preparation against a friendly power, and seek by falsehoods and misrepresentations to seduce our own citizens, especially the young and inconsiderate, into their wicked schemes—an ungrateful return of the benefits conferred upon them by this people in permitting them to make our country an asylum from oppression, and in flagrant abuse of the hospitality thus extended to them. And, whereas, such expeditions can only be regarded as adventures for plunder and robbery, and must meet the condemnation of the civilized world, which they are derogatory to the charter of our country in violation of and expressly prohibited by our laws.

Our Statutes declaring that if any person shall, within the territory or jurisdiction of the United States, begin or set on foot, or promote or prepare, the means for any military expedition or enterprise to be carried on from thence against the territory or domain of any foreign province or State, of any Colony, District or People, with whom the United States are at peace, every person so offending shall be deemed guilty of a high misdemeanor, and shall be fined not exceeding three thousand dollars, and imprisoned not more than three years. Now therefore, I have issued this my proclamation, warning all persons who shall connect themselves with any such enterprise or expedition, in violation of our laws and national obligations, that they will thereby subject themselves to the high penalties denounced against such offenders, and will forfeit their claim to the protection of this Government or any interference in their behalf, no matter to what extremity they may be reduced in consequence of their illegal conduct.

And therefore I expect all good citizens as they value their own laws and the laws of nation, as they value the blessings and the welfare of their country to discountenance and by all lawful means prevent any such enterprise, and I call upon every officer of the Government, civil and military, to use all efforts in his power to arrest for trial and punishment every such offender against the laws of his country.

Given under my hand the twenty-fifth day of April, in the year of our Lord one thousand eight hundred and fifty-one.

MILLARD FILLMORE.

W. S. Derrick, Ass't Sec'y of State.

The Spanish Minister had a long interview yesterday with the President with reference to the meditated attack upon Cuba. The Secretary of War and Navy were sent for and remained during the interview.

In addition to instructions given to U. S. Marshals and other officers, the vessels of the Home Squadron have been ordered to cruise in such a way as to render any attempt to reach Cuba almost if not wholly impossible.

The Saratoga is at Pensacola and the Germantown at Havana. The Albany will be at this latter port by the first of May.

Promoted.

Washington, April 25.

Horatio N. King, formerly Democratic editor in Maine, has been promoted from a $1400 Clerkship to one of $1650 in the Post Office Department.

Testimonial for a Gallant Act. Captain Henry R. Hovey, of the London packet ship Devonshire, has been presented by the Senate of Hamburg with a beautiful gold medal, for humble exertions in rescuing the passengers and crew of the ill-fated Helena Sloman. The medal is a fine work of art, every way worthy of its object.

Philadelphia, April 25.

Custom House excitement here is increasing. Gov. Johnson says, that President Fillmore has pledged his word that he will not remove Collector Lewis. Petitions are being numerously signed.

BROCKMULLER'S
MAY-DAY FESTIVAL!
GREAT ATTRACTIONS AT THE
Palm Street Green House!
Near the dwelling of F. Hobbs, Esq., State St
1600 TICKETS AT 25 CENTS!
J. C. J. Brockmuller
HAS the pleasure of informing the Ladies and Gentlemen of Bangor, that on May-Day there is to be a grand Festival of the Flowers at the Palm Street Green House, on which occasion every visiter will be entitled to a Plant, and also a chance for a rich and rare *PREMIUM*. The 1st Premium will consist of twelve Plants, viz:
1 Queen of the Prairie Rose,
1 Lorraine Rose,
1 Baltimore Belle Rose,
1 Monthly Rose,
1 Oleander,
1 Carnation Pink,
1 Geranium,
1 Calla,
1 New Verbena,
1 Viburnum,
1 Jelloflower,
1 Acacia.
The second Premium will consist of 10 similar plants; the third of 8 plants, the fourth of 6 plants, and the 5th of four plants.
The successful drawer of the favorite number will be entitled to the 1st premium of 12 plants; and of the second number to the second, and so on.
The price of admission is fixed at 25 cents, and for this each visiter will be entitled to a plant corresponding with his number, and which it is believed will be a full equivalent for the admission fee, and then the grand and rich PREMIUMS will come in afterwards, as a very pleasant incident to gratify the friends who may choose on the gala day of Flora to visit the *Palm Street Green House*.
All the citizens of Bangor, and vicinity, who wish to see a very splendid and very large collection of Green House Plants, hardy Roses, &c. and to take home with them fine specimens, and perhaps enough to stock a flower stand or garden border, are respectfully invited to attend.
☞ No effort will be spared to make the visit agreeable.
Remember, Thursday next, the First day of May, the Flower's birth day of the season.

Tannery for Sale;

MONEY TO BE MADE AS WELL AS HEALTH.

THE Tannery formerly occupied by Nathaniel Porter, in Prospect, is offered for sale on the most reasonable terms. The Main building is 60 feet long and 24 feet wide, two stories high, the third story is open to the roof, and the roof is in good repair. The bark room is 40 feet long and 24 feet wide, and the roof is in good repair. In the first story are nine Leaches, three lime rooms, the bark room, a Mill for grinding bark, and one leach containing 6 tuns. In the second story are the Currying Shop, one leach containing 6 tuns, and a large room. Here are also Water Lots, a fulling Mill and a horse pump.

The leather part of the Tannery is also 60 feet long by 24 feet wide, and contains the Dry House, Bark Room, Currying Shop, and Water Lots. In the lower stories are 38 tanning Vats, and a Mill building 30 feet long, 20 feet wide, and 2 stories high.

This Tannery is in the town of Orono, contains 6000 hides in a year, tans 1000 cords of bark, and employs a large number of men. The Mill alone is worth at the rate of $243 per cord. The location of the Tannery is on the Penobscot River, and is easily accessible from Bangor by three dollars or ton.

The Tannery is in perfect repair, and in full operation. It cannot be surpassed. The Mill and Tannery are in good repair—the Mill they will need some repairs this season.

The Tannery will positively be sold very cheap—cheaper than it can ever be purchased again. Now is a rare chance for some one to make a moderate income, or establish a business that will yield a handsome income, and at the same time be a public benefit, by the exercise of business talent, industry, and energy, and probably a large fortune by the exercise of business talent, industry, and energy, and a competency by a considerable fortune in a few years. Seven hundred cords of bark can be had in the vicinity at a reasonable price.

A perfect title to the premises will be conveyed to the purchaser by the owners, Messrs. Stacey, Bradley & Co, of Boston. Those wishing to purchase will do well to address the subscriber, their Attorney at Bangor, or apply on the premises to

THE GENUINE BALM OF COLUMBIA

IF you wish a rich, luxuriant head of hair free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness it will more than exceed your expectations. Many who have lost their hair for twenty years have had it restored to its original perfection by the use of this balm. Age, state of condition appears to be no obstacle whatever. It also causes the hair to flow in those delicate half tubes are filled by which most thousands (whose hair was gray as the Asiatic sage) have had their hair restored to its natural color, this invaluable remedy. In all cases of fever with the Gundrum most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It is a remedy that never fails to impart a rich glossy appearance, and as a dressing for the toilet it is unequalled. Ribbons and other mineral and hair restoratives are more effectual.

☞ Caution.—Never buy it unless you find the name of Comstock & Co. on the wrapper or on each bottle, or you are cheated with a worthless counterfeit.
